Active planning can be a step towards improving productivity, service quality, individual out-

## Take Action

Now you have completed the analysis and identified areas of improvement of your self-assessment, use the template in [appendix three](#) to plan change, take action and monitor progress. You may find your planned interventions overlap and interlink across the 4 pillars of productivity and how you use digital technology.

Consider how you will know you've achieved what you set out to do. Take a 'SMART' approach to identifying your actions, targets and desired outcomes. [Targeted outcomes](#) - See section 2.1 of the Guide to Improvement [here](#) 'Plan and implement your improvement'.

<b>Process</b>	Set of interrelated or interacting activities that transform inputs into outputs
<b>Input</b>	What is put in, taken in, or operated on by any process or system.
<b>Output</b>	The activities, services and products produced - what is delivered
<b>Outcomes</b>	The changes, benefits, learning or other effects that take place as a result of the service and activities provided - what is achieved.
<b>Performance</b>	Capture the changes and benefits experienced by people who use the services that have been provided by the care service.
<b>Indicators</b>	The signs and signals that are monitored in order to measure the progress in the delivery of services (Outputs and processes) and in the changes it brings about (outcomes).
<b>Monitoring</b>	The routine collection and recording of information, to keep track of day to day activities and progress. Its purpose is to provide regular feedback on how things are going and help make decisions.

### Targeted outcomes

Go to: [Practical approaches to workforce planning guide](#) and the [Workforce Outcomes Measurement Model](#) where you will find step-by-step approaches and detailed guidance.

### Outcomes

Plan a schedule of regular meetings to monitor progress.

Review your action plan regularly with everyone it affects to check it is on target. Address any issues, barriers or surprises that arise. Are there any emerging opportunities? Review and redefine targets as needed.

### Re-evaluate

Having undertaken the activities, complete a review and evaluation using the template in appendix three. To review your outcomes, you need to be very clear about the priorities that you set and involve all partners in evaluation. Consider whether the changes you made achieved the desired outcomes.

[Targeted outcomes](#) - See the following sections of the Guide to Improvement [here](#)

2.3 'Monitor your performance and maintain quality'

2.4 'Provide evidence of your improvement for the CQC'

2.5 'Let people know you have improved'

# Appendix: Review and Record

Review and record the overall results and impact of the interventions.
